

## Speaker Bio's

### Ted DeBoda

Ted DeBoda has 30 years of engineering experience in both the municipal and private sectors. Much of his career has focused on pipeline assessment and rehabilitation. He has been a certified master trainer under the nationally accepted NASSCO Pipeline Assessment Certification Program (PACP) since 2002. He has served on committees to update the Water Environment Federation's (WEF) Manuals of Practice, as well as the NASSCO's Infrastructure Assessment Committee to lead in the development of MACP (for Manholes) and LACP (for Laterals). He has served the Chesapeake Water Environment Association (CWEA) as President, as Chairman of the Collection System Committee (CSC), and as Delegate for WEF. He was inducted into the Golden Manhole Society in 2002, and in 2014, was awarded Water Environment Federation's prestigious "Arthur Sidney Bedell Award" for his extraordinary personal service to a Member Association. Ted currently serves as the Executive Director of the National Association of Sewer Service Companies (NASSCO). Prior to NASSCO, he was the Baltimore Office Manager for URS Corporation and Chief of Project Management for New Castle County, Delaware. He received his Bachelor's Degree in Civil Engineering from the University of Delaware and is a registered Professional Engineer in Maryland and Delaware.

### Lynn Osborn

Lynn Osborn, a registered professional engineer, is the Owner of LEO Consulting, LLC, an engineering consulting firm specializing in the trenchless rehabilitation of pipelines. Lynn has over 40 years' experience in the water and sewer industry, including 9 years as a Project Manager for a multidiscipline civil engineering consulting firm and 31 years in engineering with a large technology provider and contractor principally in the business of pipeline trenchless technology. Lynn currently acts as Technical Director for NASSCO, Inc.

Lynn holds Bachelor's and Master's degrees in Civil Engineering and resides in Dardenne Prairie, Missouri.
